

October 4th, 2017

Dear Customers,

Eagle hydraulic is proud to announce the completion of our new Mirabel based Corporate Headquarter. The state-of-the-art 55 000 square foot realisation is a dream come true for our owner Feng Wang whose engagement to customer service, quality and innovation was at the core of the design of this new facility. We will now be able to support more inventory, assemble more power units, make quick samples with our new CNC Machine and support product development better with our new 200 HP Heavy Duty test bench.

On October 30th, we will be fully operational at our new address: **12055 Arthur Sicard Road, Mirabel, QC J7J 0E9.**

To accommodate transition between the two buildings, we will close our assembly and shipping/receiving department between October 25th and 27th inclusively.

Our customer service team will be available to serve you on the 25th and 26th, but we will be in a complete shutdown on October 27th.

We thank you again for your patience and understanding during this short moving process,

Should you need any additional information, please do not hesitate to contact our customer service department,

Truly Yours,

The Direction
